## New SKT under construction

**Y**our 4E Specialty Knowledge Test is undergoing a rewrite this month. It will be based on the new (1997) Career Development Course. **BUT, this new SKT will not be used** until 1999. All tests administered in 1998 will be based on the old CDCs and the other references given in the WAPS catalog. **KEEP your old CDCs! CHECK the WAPS catalog!**

Old CDCs are being mailed by ECI to those newly eligible to test.

New CDCs are mailed by ECI to those entering 5-level upgrade training (and to anyone else willing to pay for them).

New CDCs will be mailed to everyone eligible to test when the new CDCs are listed in the WAPS catalog (probably after Aug 98).

## 4E Utilization and Training Workshop

**T**o keep the Public Health courses taught at your USAF School of

Aerospace Medicine current and vibrant, we periodically hold U&TWs. These are meetings here at USAFSAM of your coworkers, representing all MAJCOMS. USAFSAM invites these folks, our prime customers, to tell us what you need the school to teach.

A U&TW will review the 3-level PH Apprentice Course Specialty Training Standard during the week of 6-10 Oct. The workshop will be run by SSgt Alex Perry and SSgt

John Foster of USAFSAM. The team is loaded with PH talent, and we're very excited about the improvements and ideas they'll bring. This year's U&TW members:
